

Would you like to share your views on hepatitis C treatment?

If so, we would like to speak to you.

**Researchers at La Trobe University are studying experiences
of hepatitis C and treatment.**

**The study is open to anyone aged 18 and over in NSW or
Vic who has hepatitis C, a history of hepatitis C
diagnosis, or experience of injecting drugs (but no
knowledge of whether they have hepatitis C).**

*People with current and past experiences of hepatitis C
treatment are encouraged to participate.*

Participation involves a **confidential audio recorded
interview** of about one hour, and you will be reimbursed
with a Coles gift card or \$50 for your time.

The interviews will be conducted online, over the phone or in
person if possible, in a location to suit you.

Who do I contact if I want more information
or want to take part in the study?

Adrian Farrugia on 0492 150 050 / a.farrugia@latrobe.edu.au
